EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

SUBSTITUTE TITLE:

Optically compensated birefringence mode liquid crystal display device having specific retardations in splay and bend states and method of fabricating the same

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments presented in the Appeal Brief filed on 12/20/05 are persuasive in overcoming the rejection of independent claims 1 and 11 as unpatentable over U.S. Patent No. 6,137,554 to Nakamura et al. in view of U.S. Patent No. 5,774,197 to Nakamura et al. Specifically, arguments presented on Page 6 of the Appeal Brief are persuasive in identifying that Nakamura '554 fails to disclose the proposed retardation range ($1.35 < R1/\lambda < 1.75$) for the splay state when no voltage is applied.

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
